THIS MONTH —

The World Gone Mobile

Well, folks. It's been nearly a month of quarantine. So much has changed. From how we work, to how we continue education and how we fill our time, these shelter-in-place and stay-at-home orders have changed the way we do almost everything, **including using the internet.**

Some unsurprising things happened— social media apps like Facebook, Instagram and Twitter skyrocketed in usage worldwide as have Zoom, Google Hangouts, and other online conferencing platforms, especially as schooling has moved online. And while desktop usage has increased for streaming services like Hulu and Netflix, the world has gone mobile like never before, seemingly overnight.

So, this month — while we're working on a mobile app project with a client (that's launching next month!) — we are sharing all things mobile (including some Savas Team favorites!) to help you as you continue to navigate these ever-changing times we're in.

Featured work —

Like many of you, we use apps in our lives and work to make tasks easier, more efficient, and more manageable. Utilities like time-tracking apps (we use **Harvest**) must have the right feature set to succeed. Noticing an area of improvement, we set out to save time as we track it. Here's more:

[Sorting Harvest Timesheets→](#)

★ The more you know: App Edition —

Apps the Savas Labs team has discovered and been leaning on, especially in the last several weeks:

[HouseParty→](#)

Group video and games, allowing up to eight people.

Ben's pick

[Scribd →](#)

Books and audiobooks at your fingertips.

Savas team pick

[Marco Polo→](#)

The chat app that allows for conversations like you'd have in real life but on your own schedule.

Jordan's pick

[Discord→](#)

Ideal group chat, video, and text app.

Drew's pick

[Google Arts and Culture→](#)

Explore museums around the world and discover famous masterpieces.

Sean's pick

[Bunch→](#)

Group video app that allows up to eight people.

📣 Client shoutout —

This month we'd like to say a special thank you to **Duke Cancer Institute**, as well as the entire Duke Health and greater medical/first responder community. Their care, compassion, and hard work, especially in these trying times, are what truly make them superheroes in our book.

🎉 **And now, a GIF —**

When you discover your new favorite app and can (digitally) socialize with your friends and family.

💻 **Join the team —**

The needs at Savas Labs are continually evolving as we grow, but one constant is that we always love to meet ambitious, hard-working people who seek to excel (professionally, but also at games like [CodeNames](#), which we've been playing digitally as a team even as we work from home).
